MAINSTREAMING EO IN 2018

GROWING THE EVIDENCE

The EOA worked on two pieces of ongoing research published with partners including with RM2, the UK Top 50 Employee Owned businesses and with the White Rose Centre for Employee Ownership, the update of their Annual Survey. The Ownership Dividend report launched to share the findings and recommendations of the Ownership Effect Inquiry. In 2018 more than 100+ EO case studies were gathered through the Ownership Dividend, EO Day, Regional Networks and EOA Conference
