

## Network Opportunities.

**Bringing you the latest merger and acquisition opportunities.**

As we step into June and embrace the start of summer, the M&A landscape continues to evolve, offering both fresh challenges and opportunities for owner-managed businesses. The first half of 2025 has already shown a growing sense of optimism, with an increasing number of investors seeking well-prepared businesses with solid fundamentals.

This renewed confidence, despite uncertain macro-economics, sets the stage for a dynamic second half of the year. As summer approaches, the pace of dealmaking tends to shift, and now is the ideal time to ensure your clients are well-positioned for success when the market heats up again.

In this edition, we highlight some of the latest transactions and successes within our network, providing valuable insights into how strategic planning and expert advice can make all the difference in a rapidly changing market. As always, we welcome your thoughts, feedback, and updates—please don't hesitate to get in touch.

### Engineering

#### E210 - Facilities for building, restoring and testing services for all types of high-performance engines

For 40 years, the Company has provided a specialist facility for building, restoring and testing classic, historic and current high-performance engines. It is one of the few facilities in the country having the in-house facilities to test all types of engines All engines are meticulously built and tested by a highly skilled and experienced workforce.

The Company is renowned for its quality and attention to the finest detail. The specialist knowledge amongst both the owners and workforce, quality of workmanship and ethics make it stand out as a professionally run business. There is a broader effort to transition away from fossil fuels and reduce greenhouse gas emissions.

In 2026 Formula 1 engines will be fuelled with man-made fuel rather than traditional varieties. It is likely these requirements will pass across to motor sport soon after. Several prominent institutions and initiatives are already involved in the testing of man-made fuels. This acquisition will provide the opportunity to be part of this movement. Turnover for the year to December 2023 was £470,000 (2022: £424,000).

The shareholders, being the directors, know the Company's facility can be increased thus presenting a buyer with an opportunity to increase the capacity to provide more services to existing customers and to market the existing services to new customers. They also have a desire to move onto the next stage of their lives by enjoying more time with their family once the integration period has been completed.
